VORTEC®

VX SERIES / PADDLE AGITATION

VX2000 HYDROSEEDER

Built for heavier hydromulch mixes

The VX2000 uses mechanical paddle agitation to mix wood fibre, paper and pourable mulches, including BFM and FGM. Vortec lists embankments, mine rehabilitation, roadside seeding and commercial landscaping among its applications.

PUBLISHED SPECIFICATIONS

CAPACITY
2,000 L

COVERAGE
500 m² per load

HOSE
30 m

NOZZLES
1 x 30° and 1 x 80° stainless

MATERIALS
Paper / pourable, wood fibre

WEIGHT
480 kg

LOADED WEIGHT
2,480 kg

AGITATION
Mechanical

MACHINE FEATURES

- Bi-directional paddle agitation
- Poly tank and integrated bale tray
- Left-hand-side operation
- High-flow 2-inch gear pump
- Sloping tank floor

STAGING SPECSHEET
